

Oral Exams: Exam Format (dates 26/04 → 03/05)

The oral examination consists of a 6 to 8-minute interview with a panel of two examiners. The discussion will focus primarily on *one* [as selected for candidate by examiners just before exam] or more of the five *destinations francophones* studied during the semester during Oral seminars (see list below). Oral examiners may switch to general conversation e.g. students' studies to at UCD or future summer plans. Exams will be recorded.

On the day of the examination, students **must** arrive **ten** minutes early with a selection of **four** (out of five studied) destinations that they have prepared. The panel will select **one** of these four destinations. Students will then be allowed **ten** minutes' preparation outside, before discussion of the chosen destination.

*It is essential that candidates present themselves **ten** minutes before their timetabled slot to confirm their destination with examiners and to avail of their ten minutes' preparation time.* Students may not bring documentation of **any** nature into the exam room.

Students are assessed according to the following criteria:

- Ability to discuss one destination and possibly a second destination studied during module (via articles on BrightSpace)
- Accuracy in pronunciation
- Range of vocabulary
- Command of idiom and syntax
- Fluency
- Aural comprehension

List of Destinations: students prepare *four* destinations; panel selects *one*

1) La Polynésie 2) La Réunion 3) Le Maroc 4) Le Mali 5) La Guyane
